

Project Demo Planning

Date	11 July 2026
Team ID	SWTID-2026-4350
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the project, objective, and problem statement of the Loan Approval Prediction System.	2 mins	Team Leader
2	System Overview	Explain the system architecture, technologies used, database design, and Machine Learning model integration.	3 mins	Team Member 1
3	Live Application Demonstration	Demonstrate applicant registration, loan prediction, risk classification, and dashboard functionality.	6 mins	Team Member 2
4	Database & Prediction Explanation	Explain how applicant data is stored, how predictions are generated, and how results are maintained.	3 mins	Team Member 3
5	Features & Future Enhancements	Present implemented features, advantages, limitations, and future improvements.	2 mins	Team Leader
6	Conclusion & Q&A	Summarize the project and answer questions from the evaluators.	4 mins	Entire Team

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for an automated loan approval prediction system and the project's objectives.
2	Solution Overview	Describe the Flask application, SQLAlchemy database, Machine Learning model, and system workflow.
3	Live Feature Demonstration	Show the prediction form, enter applicant details, generate the loan approval result, display the risk category, and view dashboard statistics.
4	Q&A Session	Answer questions related to project features, Machine Learning model, database, implementation, and future enhancements.
