

No. of Functional Features Included in the Solution

Date	01 July 2026
Team ID	SWTID-2026-4350
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	User Management	Manages default Admin and Analyst users and maintains user records.	User Module	Done	High
2	Applicant Registration	Collects applicant personal, employment, education, income, and housing information.	Applicant Module	Done	High
3	Credit History Management	Stores applicant repayment history and overdue status for prediction	Credit History Module	Done	High
4	Loan Approval Prediction	Predicts loan approval or rejection using the integrated Machine Learning model.	ML Prediction Module	Done	Very High
5	Risk Category Classification	Classifies applicants into Low, Medium, or	PredictionModule	Done	High

		High Risk based on prediction confidence.			
6	Prediction History Storage	Saves prediction results, model used, risk category, and prediction date in the database.	Databoard Module	Done	Medium
7	Dashboard & Statistics	Displays total applicants, approval/rejection counts, recent predictions, and active model information.	DashBoard Module	Done	High
8	Database Initialization	Automatically creates database tables and inserts default users and ML model metadata during startup	Initialization Module	Done	Medium

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	6
Additional / Nice-to-Have Features	2
Features Tested & Verified	8

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	3	Home Dashboard, Prediction Form, Result Page
2	Backend / Logic	4	Prediction Engine, Risk Classification, Dashboard Statistics, Database Initialization
3	Database / Storage	5	User Table, Applicant Details, Credit History, ML Model, Approval Prediction

4	API / Integration	1	Machine Learning Predictor Integration
5	Security / Authentication	1	Default Admin and Analyst User Management
