

## Communication

|                      |                                 |
|----------------------|---------------------------------|
| <b>Date</b>          | 01 July 2026                    |
| <b>Team ID</b>       | SWTID-2026-4350                 |
| <b>Project Name</b>  | Credit Card Approval Prediction |
| <b>Maximum Marks</b> | 1 Mark                          |

### Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

| S.No | Communication Type       | Frequency | Channel / Tool                | Participants                 | Purpose                                                      |
|------|--------------------------|-----------|-------------------------------|------------------------------|--------------------------------------------------------------|
| 1    | Team Standup             | Daily     | WhatsApp / Google Meet        | Project Team Members         | Discuss daily tasks, progress, and assign work.              |
| 2    | Progress Update          | Weekly    | Google Meet / Microsoft Teams | Team Members & Project Guide | Review project progress and receive guidance.                |
| 3    | Issue / Bug Discussion   | As Needed | WhatsApp / VS Code Live Share | Development Team             | Resolve coding errors, bugs, and technical issues.           |
| 4    | Stakeholder Review       | Bi-Weekly | Google Meet / Presentation    | Project Guide & Team Members | Review project functionality and gather feedback.            |
| 5    | Final Demo Rehearsal     | Once      | Classroom / Google Meet       | Entire Team                  | Practice the project demonstration and presentation.         |
| 6    | Final Project Submission | Once      | College Submission Portal     | Team Leader & Guide          | Submit the final project documents, source code, and report. |

### Communication Challenges & Resolutions:

| S.No | Challenge Faced                                                                          | Resolution / Action Taken                                                                                                |
|------|------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| 1    | Difficulty integrating the Machine Learning prediction model with the Flask application. | Tested the integration module separately and fixed configuration issues before integrating it into the main application. |
| 2    | Errors caused by missing dependencies and configuration files.                           | Installed all required packages using <b>requirements.txt</b> and verified the <b>config.py</b> settings.                |
| 3    | Team members faced issues while combining frontend, backend, and database modules.       | Conducted regular team meetings, divided tasks clearly, and integrated each module after successful testing.             |
